

WEMBLEY STADIUM - PARKING UPDATE

As part of the ambitious regeneration around Wembley Stadium connected by EE, the Pink Car Park is being significantly upgraded to offer a high quality multi-storey car park close to the Stadium.

Until this work is completed parking will be limited and we strongly recommend you use one of the many public transport options to travel to and from Wembley Stadium. You can plan your journey here <https://tfl.gov.uk/>.

The Stadium is accessible via:

- Wembley Park Station - Metropolitan and Jubilee Lines
- Wembley Central Station - Bakerloo, Overground and Southern services
- Wembley Stadium Station - Chiltern services

If you do decide to travel by car please note that each team will have an equal parking provision for the event and the allocated car parks will be based on the route of each team.

Parking must be pre booked at <https://www.wembleyofficialparking.com/>. There are no pay-on-the-day options at Wembley and local unofficial car park sites are no longer operating. Vehicles that have not purchased a parking space in advance will be prevented from entering the area.

While the Pink Car Park is being upgraded there will be temporary official car parks available. However, it is worth noting some of these temporary car parks are a 30-40 minute walk to the stadium. Wembley Stadium will provide an accessible shuttle bus service to and from the Official Coach parking areas on the day.

If you are a Blue Badge holder please select the appropriate category when pre-booking car parking to avoid a long journey once parked.

We appreciate your understanding during the construction phase of this new car park. We thank you for planning ahead and allowing more time for your journey.
