The Club are seeking an ambitious analyst to work with the Regional Talent Club (RTC) and WSL Academy who have shown exceptional progress in recent years with two players signing first team contracts in the recent 2020-21 season.

The department wants to continue improving this environment and this is an exciting opportunity to implement your ideas into a young, adaptable and forward-thinking analysis department with occasional opportunities to support the first team.

Primary duties of the role include filming all WSL Academy Squad matches and co-ordinate filming of RTC games across various age groups. All of the footage is uploaded to an online sharing platform and managing video storage diligently is required.

The WSL Academy squad will benefit from your pre-match tactical and objective information for players and coaches. Similarly, your post-match presentation evaluating team tactics and match objectives will support their upcoming training week and ultimately future game performances.

To be successful the analyst will work effectively with other support staff and services, including coaches, physiotherapy/medical services, to provide a multi-disciplinary approach to performance enhancement. You will also need to have experience of using analysis software programs such as Hudl Sportscode / Fulcrum Angles along with excellent presentation and communication skills.
